EXPERT OPINION

The Insurance Commissioner of Virginia says:

"The company is managed by men whose sole idea is to preserve and protect the interests of the policyholders."

Best's Life Insurance Reports, the Bradstreet and Dunn of the insurance world say:

"The South Atlantic Life Insurance Company, is backed by substantial and reputable interests. Its actuarial methods are sound. The terms and conditions of its policy contracts are liberal and fair. The mortality rate has been favorable, which has helped to make the cost of insurance low. Claims are promptly paid. The investments are sound and unusually remunerative."

A new CONCRETE FIRE PROOF CONCRETE Agricultural Exhibition Hall 60x150 feet built in 1910, and the handsomest new POULTRY BUILDING in the South built in 1911, both paid for in full from profits of the Fair.

Other and greater improvements in 1912.

DEMOCRATIC STATE PLATFORM---1910

Adopted at Charlotte, N. C., July 14, 1910.

1. We, the representatives of the Democratic Party in North Carolina, in convention assembled, rejoice in the call occasioned by the coming election and the opportunity thus offered to lift up again in the midst of the people of North Carolina the banner of the Democratic Party as a sure standard of their rights and the unfailing guide of their progress, and we reaffirm our allegiance to the cardinal principles of democratic government and congratulate the people of North Carolina upon the wise, progressive, and economical administration of the affairs of government since the return of the Democratic Party to power in this State.

2. We commend to the people of North Carolina the consideration of the success with which the affairs have been administered by the Democratic officials, and the clean, efficient, and economical conduct of the State Government from the day of the return to power of the Democratic Party, and we reaffirm the declarations of our party upon the questions of the extension and improvement and upbuilding of the internal affairs of the State and the institutions provided by the State for the care of our citizenship, both charitable and educational, and pledge ourselves to the continuation, upbuilding, and development thereof.

3. We pledge ourselves to the continued development of the internal affairs of the State; to the continuation of the policy of education which has been carried forward with such success under the Democratic administration; to the further development of local improvements; to the maintenance of the institutions for the insane, deaf, dumb and blind, and to the extension of these institutions to meet the demands upon the State, and the needs of the unfortunate who require the care and maintenance of the government.

4. We pledge ourselves to the continued aid and assistance of the Confederate soldier, and demand that legislation shall make ample appropriations for his comfort and care.

5. We commend and approve the administration of Governor W. W. Kitchin, and the other State officials, and commend and approve our Senators and Representatives in Congress for their activity in behalf of the people of North Carolina.

6. Internal development and improvement tend to the upbuilding of any citizenship, and we take pride in the progress that has been made under Democratic government in the building of roads and the extension of means of communication and transportation all over the State, and we particularly approve of the work in this behalf by the Good Roads Association of North Carolina.

7. We recognize the great growth and improvement of the State along material and intellectual lines under the policy of the Democratic Party in the support and maintenance of the common school system of North Carolina, and the pledge of the party heretofore made of a four-months free school in every district of the State has been fully met, and we promise the continued support and improvement of the public school system of the State and the extension of the same to the institutions of the State for higher education, to the end that these institutions may be placed

The East Carolina Teachers Training School

The Fourth Annual Session Begins September 1912

upon a permanent basis of extension and maintenance consistent with the growth of the school system of the State and the increased population and demands of her citizenship; and we favor in the schools of the State a more liberal instruction in agricultural training and the encouragment and development of the agricultural interests in such schools.

8. The supervision and control of public-service corporations is a well recognized right of the State and National governments, and we pledge ourselves to the enforcement of this right in the interest of the people of the State consistent with fair and just treatment of the public-service corporations, and no public-service corporation shall grant any special privileges to any person or corporation.

9. Private monopolies in restraint of trade are inconsistent with the growth and development of internal affairs of the State and the liberties of the people and should not be allowed. We are opposed to illegal combinations in restraint of trade, trusts and monopolies, and favor the enactment and enforcement by the State and National governments of such laws as will make their existence impossible.

10. We condemn the unjust and unreasonable discrimination in freight rates against the towns and cities of North Carolina and in favor of the towns and cities of other States.

11. We pledge ourselves to the fostering and encouragement of all legitimate enterprises and developments that may be located within the borders of this State, and in the administration of the laws no legitimate enterprise shall be injured.

12. We condemn and denounce the tariff policy of the Republican Party as enacted in the Aldrich-Payne tariff bill, and we declare the same to be the most iniquitous tariff burden ever placed upon the United States, formulated in behalf of sectional interests and fostering the trusts and combinations of the country at the expense of the great mass of the people; and in spite of the promises of the Republican Party that prosperity would follow its adoption, we call attention to the present commercial condition of the country, its idle factories, industries and unemployed operatives.

13. We denounce the extravagant and unbusinesslike administration of the affairs of the National government by the Republican Party, whereby there has been a useless expenditure of over $300,000,000 annually of the people's money.

14. We call attention to the failure of the Republican Party to revise the tariff in accordance with the pledges of its platform and its promises.

15. We demand the enactment of a tariff for revenue only to meet the expenses of a government economically administered.

REPUBLICAN STATE PLATFORM---1910

Adopted at Greensboro, N. C., August 10, 1910.

We, Republicans of North Carolina, in convention assembled, do hereby adopt the following statement of our beliefs and purposes concerning both National and State affairs:

Endorsement of Administration.

We pledge our continued loyalty to William Howard Taft, President of the United States, and leader of our party. We heartily congratulate both him and the Republican majorities in the Sixty-first Congress on the extraordinary accordance with the promises of our National Convention, have already been enacted into law. Our history hardly affords another instance in which the party in power has so promptly made good so many of its promises to the people.

Reaffirm Principles of Protection.

We renew our allegiance to the Republican policy of protection. The Southern States, and North Carolina in particular, have profited by that policy in the past, and have every reason to expect increased benefits from it in the future.

We heartily approve the plan of a tariff commission which, by investigating carefully the conditions and the cost of production of protected articles in this country and abroad, aims not merely to put that policy on a scientific basis, but to enable all men to judge for themselves of its fairness and justice. Firmly believing, as we do, that it is the best policy for this country, we hold that it is plainly to the South's, and to North Carolina's, interest to send to Washington Representatives and Senators of the party that supports it. We hold that the South is shamed by the glaring insincerity of Democratic Senators and Representatives who, while posing as bitter opponents of this policy in their speeches and their party platforms, nevertheless show by their votes that they believe in it; who seek to secure its benefits for their constituents not by the manly avowal of their real convictions, but by secret intrigues and bargains.

Regulation of Interstate Commerce.

Out of the great number of wise and progressive acts which stand to the credit of this Administration and this Congress, we especially commend their treatment of the difficult subject of interstate commerce, and we heartily endorse the policy embodied in that legislation, to-wit: regulation of commerce carriers by a commission of experts, subject to appeals to a court so organized that it will become a court of experts. We call attention to the contrast between this firm and definite and sound policy and the utter failure of the opposition to agree upon any policy whatever in this field.

We commend also the vigorous measures already taken to conserve our National resources for all the people.

Prevention of Financial Panic.

We also cite, as another example of the efficiency of the Republican party, the admirable work of the National Monetary Commission in preparing the way for the much needed reform of our system of currency and banking, to the end that the irresponsible control of credit by powerful and selfish private interests shall be stopped and that adequate provision shall be made to safeguard the business of the country against financial panics. We commend the work of that commission to business men, and ask them to contrast the Republican attitude on this issue with that of the Democratic party, which while loudly crying out against existing evils, offers no plan of its own for reform, but contents itself with opposing, like the proverbial dog in the manger, every specific suggestion that is made.

On all the great National issues our party has proved its competence to manage the Government by adopting policies which all men can understand. Our opponents, by their failure to agree upon any clear program of action, have proved their unreadiness and unfitness for the trust. They are not even agreed on the tariff issue, on which they have chosen to make their campaign. Some are for moderate proteciton, some are free traders, some are high protectionists in disguise, some are for free raw materials, some are against free raw materials. To put the affairs of this great country in their hands would be to turn from the tried to the untried, from experience to blind experiment, from order to chaos.

Drainage of Swamp Lands.

We favor the reclamation of swamp lands in the South by drainage as arid and semi-arid lands in the west have been reclaimed by irrigation.

State Policies.

Turning to the affairs of our own State, we have no need to juggle with words in order to conceal a lack of convictions, or to make use of fatuous platitudes, after the fashion of our opponents. On what may be called the permanent issues, we need hardly

do more than repeat the plain language of our own platform of tyo years ago, on which we won so great an increase of support from the people.

Liberal Educational, Charitable and Pension Policies.

We repeat our declaration in favor of the most liberal policy concerning education that the State's resources will permit. Our children must all have the opportunity to obtain a good public school education. Our institutions of the higher learning must all be maintained, and we favor giving them such support that they may put within reach of our young men of talent and industry the highest attainable training, both general and technical. A great State can make no better investment of its means than for the training of its youth of both sexes and of all classes. There is no right place for ignorance in modern civilization. We favor the policy of the State furnishing, free of charge and under proper regulations, to every child in the public schools all necessary text-books.

We favor an equally liberal policy with our institutions of charity and with our Confederate veterans.

Co-operation of Labor and Capital.

We believe in the dignity of labor and the elevation of the wage-earners, and pledge our party to the enactment of such laws as will best promote this end. We believe that labor and capital are co-ordinate branches of our industrial life—each necessary to the other—that neither can prosper without the other, and looking to this end we pledge our party to the enactment of such laws as will, so far as possible, create the kindliest feeling between labor and capital, remove all causes for conflict between the two, and promote the upbuilding of both classes in North Carolina.

Good Roads.

We believe in good roads, and favor the good roads policy, both as an economic necessity and as one of the chief means to make country life—the life of most of our people—more attractive. We hold that the best employment for the State convicts is on the public highways.

Reformatories.

We again call for the establishment of reformatories for youth criminals of both sexes, and juvenile courts for our cities. These are reforms clearly demanded by the best public sentiment everywhere, and in which North Carolina must not lag behind.

We denounce the extravagance of the Democratic party in the management of the finances of the State, whereby they have increased the bonded indebtedness of the State and caused a constant depreciation in market value of our State bonds.

Fair Election Law.

We demand a fair election law, which shall permit every voter to cast his ballot voluntarily, prevent dictation and bribery, and make for a free expression of the people's will. The failure of the party in power to pass such a law is inexcusable. Every advocate of pure politics is in favor of it. None but partisan and unworthy motives are arrayed against it, and we demand effective legislation that will insure punishment of all election officers who act corruptly in the discharge of their duties.

Just Regulation, Not Destruction of Corporations.

In the matter of the State's policy with common carriers and other great corporations, we take issue squarely with the declaration of our opponents which, if it means anything, means that all great combinations of capital are to be destroyed outright. We hold, on the contrary, that much of the work of modern society will continue to be done, and must be done, by great corporations. What is needed in the State as in the Nation, is not wanton destruction or ignorant interneddling, but careful and expert and just regulation. We repeat, therefore, the pledge of our last platform—the pledge to set ourselves against two kinds of injustice, the injustice which permits great corporations and other combinations of wealth to prey upon the poor, and the injustice which sacrifices, property and deranges business in order that cheap demagogues may get or keep office.

Local Self-Government.

We reaffirm our allegiance to the time-honored principle of local self-government and we denounce the successive betrayals of that principle by our opponents, who long vaunted themselves its champions.

Judiciary Above Politics.

We demand that our judiciary, and particularly our higher courts, shall be kept above the atmosphere of partisan politics, and that the judicial ermine shall never be conferred as a reward for mere political service. The sole test of fitness for judicial honors and duties should be professional eminence and ability and exalted character.

Invitation to All Patriotic Citizens.

Believing, as we do, that in State and Nation alike the policies for which our party stands are right and wise, we invite all patriotic citizens, whatever their party affiliations in the past, to join with us in supporting

them. We believe that in the South particularly it is of the first importance that our party shall continue to grow. It is universally conceded that the Southern States, by their blind allegiance to one party, have for years deprived themselves of the power and influence in the nation, which our forefathers once possessed and vigorously exercised, and which we ought to have today. Whatever reasons may in the past have justified Southern people in that course, they do not exist today in North Carolina; and North Carolinians are breaking from the control of outworn issues and prejudices. We welcome all such citizens to our ranks, and to the end that we may be worthy of their alliance and confidence we make this declaration of independence.

A True Party and No Machine.

I. The Republican party of North Carolina, a party made up of men who love the South and love North Carolina, a party which in the election of two years ago cast 114,000 votes for its platform, electing three representatives in Congress and carrying five Congressional districts for its electoral vote, utterly and emphatically repudiates that notion of its character and function which would make of it a mere machine for distributing federal offices and electing delegates to national conventions.

II. We proclaim ourselves a true party and no machine. We need no dictator, and will submit to no dictation. We ask of our national leaders and managers the same treatment they would accord to a Republican organization of the same strength in any Northern State.

III. We invite our fellow Republicans of other Southern States to join with us in this stand; and to our fellow citizens of North Carolina, to our fellow Southerners everywhere, we again declare our conviction that a Republican vote cast in the South today is not merely a vote for Republican policies and candidates, but a vote for freedom. It is a vote for freedom from the slavery to prejudice, for freedom from the slavery to conditions and issues that are past. It is a vote for the right of all Southerners to follow their individual convictions concerning public affairs. It is a vote for the right of the South to a full share in the control of both the great political parties and in the guidance of the destinies of the American republic.

"READ IT BECAUSE THEY HAVE TO."

"The News and Observer is An Institution Read By Something Like 75,000 People, Two-Fifths of Whom Hate It Like the Devil."

(From the News and Observer, November 19, 1911.)

In connection with its year's work on the newspaper situation, Collier's offered sixty prizes of fifty dollars each in the cities and regions of the United States and Canada for the best letters from readers concerning their newspapers. It prints the prize-winning letters. In its issue of last week it prints the prize North Carolina letters—It was written by Dr. G. M. Cooper, of Clinton, and his subject was **"The News and Observer."** Collier's paid Dr. Cooper fifty dollars for the letters, as it paid fifty-nine others who wrote the best criticism concerning newspapers in all the States. These letters have been interesting and illuminating and helpful both to the public and to the editors. It is a good thing for an editor to read the opinion of a subscriber, particularly when a great newspaper, like Collier's thinks enough of the opinion of the writer to pay fifty dollars for it. If he is a wise editor he will be helped by candid criticisms. Dr. Cooper's is most kind, but is the sort of criticism of which it was said by the highest authority: "Faithful are the wounds of a friend." Here is his article for which Collier's paid Dr. Cooper fifty dollars:

RALEIGH, N. C.

I read the daily **"News and Observer"** of Raleigh, N. C. **That paper is an institution. It is read by something like seventy-five thousand people, two-fifths of whom hate it like the Devil, but read it just the same.** Why? Because they have to. Its policies make and unmake Governors, Senators, judges and lights of lesser magnitude. Politically it is mightier than all the politicians and bosses in the State, for the simple reason that it is backed by public opinion.

Ask any of the enemies why they read **The News and Observer** and the answer is always the same: "It publishes the news." That is literally the truth; nothing of real interest is suppressed. By "news" I do not mean the sickening stories of crime and domestic infelicity that fill the columns of most daily papers. I mean news of political importance or of significance to society in general. In other words, **its news matter is clean and healthy. In its editorials it reflects the best thought of the soundest thinkers in the country, and especially of the South.**

Another good reason for the influence wielded by this paper is its direct personal appeal. No one knows or cares who owns its stock, **but every line it publishes is universally regarded as the honest, sincere convictions of the editor.** To illustrate this point: It is Democratic in politics, and whenever a Republican speaker or paper alludes to an editorial in **The News and Observer** they always refer to "Josephus" (its editor is Josephus Daniels). That is "personal journalism" which might make even A Nelson or a Watterson take notice. No mortal man can measure the influence which this one paper exerts. It has fought and won many battles for better conditions in North Carolina. Its voice has been remarkably clear for the people against special privilege in national affairs.

Much more might be said in commendation of this paper, which for many a year to come bids fair to continue master of the newspaper field in this section of the South. But what I have said is sufficient to illustrate its power for good.

On the other hand, what criticism have I to offer? Very little. First, and chief, it is not at all times and in all things consistent. For instance, it carries no whiskey advertisements, but thousands of its friends are frequently forced to blush with shame at some of its glaring patent medicine announcements.

Second, and in conclusion, as a friend to the principles for which this paper stands; as one who loves the glorious history of this great country, and who hopes for its future, I would beseech its editor to beware lest in its zeal for the cause he bring to me, perhaps unconsciously, just a little more of the spirit of partizanship than of the spirit of Democracy.
